SECTION 1

INTRODUCTION

INTRODUCTION

The information presented in this statistical report summarizes data collected during the summer months of the 1986 park operating season as part of the on-going provincial park User Survey Program. This program was established in 1974 to provide current information for a variety of planning, research and operational/management functions. The program operates on a six year cyclical pattern during which time eligible parks are surveyed once. This approach permits a response to changing needs for user information and ensures that data for any given park are never more than six years old. The database is now sufficient to provide a reliable record of trends and patterns of park users on a provincial and regional basis.

Questions contained in the survey obtained information on the characteristics of day users including: the extent of park usage, travel data, activity participation, trip-related expenditures and marketing information. In addition, a number of park-specific questions were added to investigate particular issues or concerns of the park manager (see Appendix for copy of Questionnaire).

A total of 2623 questionnaires were processed and form the basis for the sample of park day visitors in the 23 parks surveyed. The following table indicates the sample size for each park surveyed.

PARK	SAMPLE SIZE
Aaron	72
Bass Lake	130
Bon Echo	297
Devils Glen	15*
Earl Rowe	161
Fairbank	98
Ipperwash	191
MacLeod	30*
Mara	169
Marten River	50*
McRae Point	73
Middle Falls	49*

PARK	SAMPLE SIZE
Murphys Point	101
Oastler Lake	237
Presqu'ile	182
Rondeau	170
Sandbanks	181
Silent Lake	131
Silver Lake	104
Sioux Narrows	82
Sturgeon Bay	45*
Wheatley	55*
TOTAL	2623

* Because of the small sample size at these parks, caution must be exercised in interpreting the survey results for these parks. Basically the smaller sample means we cannot be as confident of the specific values obtained. Contact Parks and Recreational Areas Branch, Research and Computer Applications Unit for further information.

Sauble Falls Provincial Park also participated in the day use survey, however, the sample size was too small resulting in insufficient data. For this reason, the park does not appear in this statistical summary.
